

7th Science Hiding

Friday, October 31, 2014 9:13 AM

Course 7030

Sections 1, 2, 3, 4

Section 5 is the same course but the teacher hid the contents a while ago. No issues in that section as described below.

Some items can't be hidden or edited and I don't know why. No students have attempted it.

Welcome to Science!	Discussion Question	--	Sep 04, 2014	Sep 07, 2014	Manage Linked Content
Making Observations	Discussion Question	--	Sep 08, 2014	Sep 14, 2014	
Measurement Practice HW	Assignment	--	Sep 29, 2014	Oct 03, 2014	
Measurement Study Guide	Assignment	Hidden	Sep 22, 2014	Sep 26, 2014	

I cannot hide those 2 discussion questions.. When I hover over the cogwheel, all I see is "managed linked content". No choice to edit or anything.

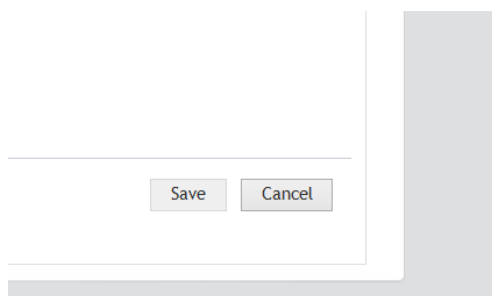

I also cannot hide the "Measurement Practice HW". No students have attempted it. I COULD hide the "Measurement Study Guide". Both are past the due date, but I could hide one and not the other.

I also cannot hide these assignments:

Unit 1 Review	Assignment	--	Oct 20, 2014	Oct 22, 2014	
Unit 1 Portfolio Submission	Assignment	--	Oct 20, 2014	Oct 24, 2014	Manage Linked Content

WHY can I hide some things and not all things? No students have attempted any of these so it does not make sense to me at all.

When I click into any of these assignments, it LOOKS like I can edit/hide/change dates but I do not have the ability to save the page. Clicking save does nothing at all in fact it looks greyed out.

Again, WHY is this happening? Is this a bug or my misunderstanding?
